### Did you know.....?

- ❖ One ingredient in ranch is titanium dioxide which is used to make it look whiter. It's the same ingredient that is used in sunscreen and paint for coloring.
- ❖ The same wax that is used on cars, carnauba wax, is used to give gummy candy a glossy sheen.
- ❖ If you ingest nutmeg in large doses, it works like a hallucinogen due to a natural compound in it called myristicin. It has mind-altering effects if taken in large doses.
- ❖ Acid is the biggest cause of tooth decay, not sugar! Crackers tend to stick to your teeth which ends up being a breeding ground for bacteria.
- ❖ Arachibutyrophobia is the fear of peanut butter getting stuck to the roof of your mouth!
- ❖ In ancient Egyptian days, radishes, onions, and garlic were given to workers as wages.
